DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Regarding claims 1 and 5, the specification doesn't adequately describe the phrase "choosing a best route for e node". The specification doesn't disclose what is an "e node" and its relationship with the other nodes recited in the claim.

Claims 2-4 depends from claim 1, thus they are subject to the same rejections.

If the recited limitation is meant to be "a node", then such node it to be distinguished from the other nodes recited in the claim, such as the particular node for example so to avoid rejections under 112 2nd paragraph.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Form PTO-892.
